

Foam Fire Extinguisher

Overview

The FEMCO AFFF foam fire extinguisher is a powerful solution for Class A and B fires. Unlike water extinguishers, it effectively puts out flammable liquid fires without reducing visibility, aiding in safe evacuation.

Made to the highest European standards with a 5-year warranty, this lightweight and compact unit is easy to store. It is also corrosion-resistant, ensuring durability in harsh conditions.

Supplied with a wire bracket, we also offer replacement parts if needed.

Features
